

Ag Planner Specialist Questions

The following list represents some questions asked by interested individuals/organizations about this position and/or RFP expectations.

- We are unsure as to whether we need to submit a specific candidate in a proposal. Do we need to have a person ready to step into the position tomorrow?
 - *No, you do not have to have someone ready to immediately fill the position. Realize, however, that having someone will strengthen your proposal.*

- Are we able to submit a proposal based on our department harboring the position with an understanding that we will need to search for a person to fill the position?
 - *Yes, you may submit a proposal in that manner. The proposal, however, requests some specifics on how you will carry out the requirements of this position. If the proposal is submitted without detail, there is a chance that it may affect the scoring of your proposal.*
